

City of Litchfield, Illinois

Tree Removal Request for Lake Properties

Removing mature live trees can be a detriment to the environment in that they provide homes for wildlife, provide shade, help save energy by reducing heating and cooling costs and contribute to the natural beauty of the lake area. The Litchfield Tree Ordinance requires persons that want a live tree removed to make a formal request to be reviewed by the Tree Board. Trees growing on the lands surrounding the lake are City property.

Date of Request: _____

Name of Leaseholder: _____
